

The public Activity Feed is enabled by default in all campaigns you create.

There are 3 places an Activity Feed can be found in a campaign by the public.

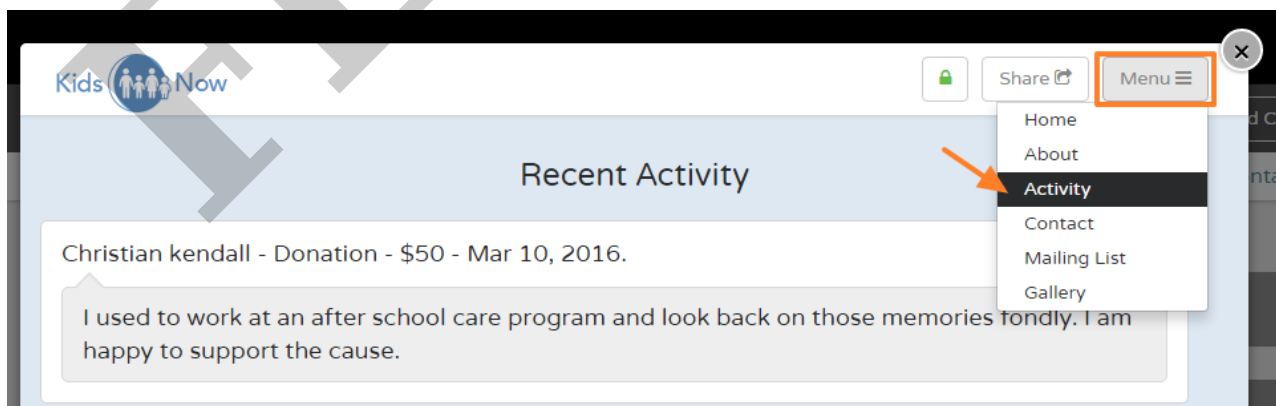

In your campaign, you can turn off any (or all) of these areas by going to the *Campaign Editor > Activity > Activity Settings*. To turn it all off, toggle the three toggles to "Hide:" **Activity Section on Landing Page** and **Activity Page on both Landing Page and Widget**

Here is how and where each of them appear:

1. Campaign Widget Additional Pages (found on the menu in the header).

To hide this activity feed, [see here](#).

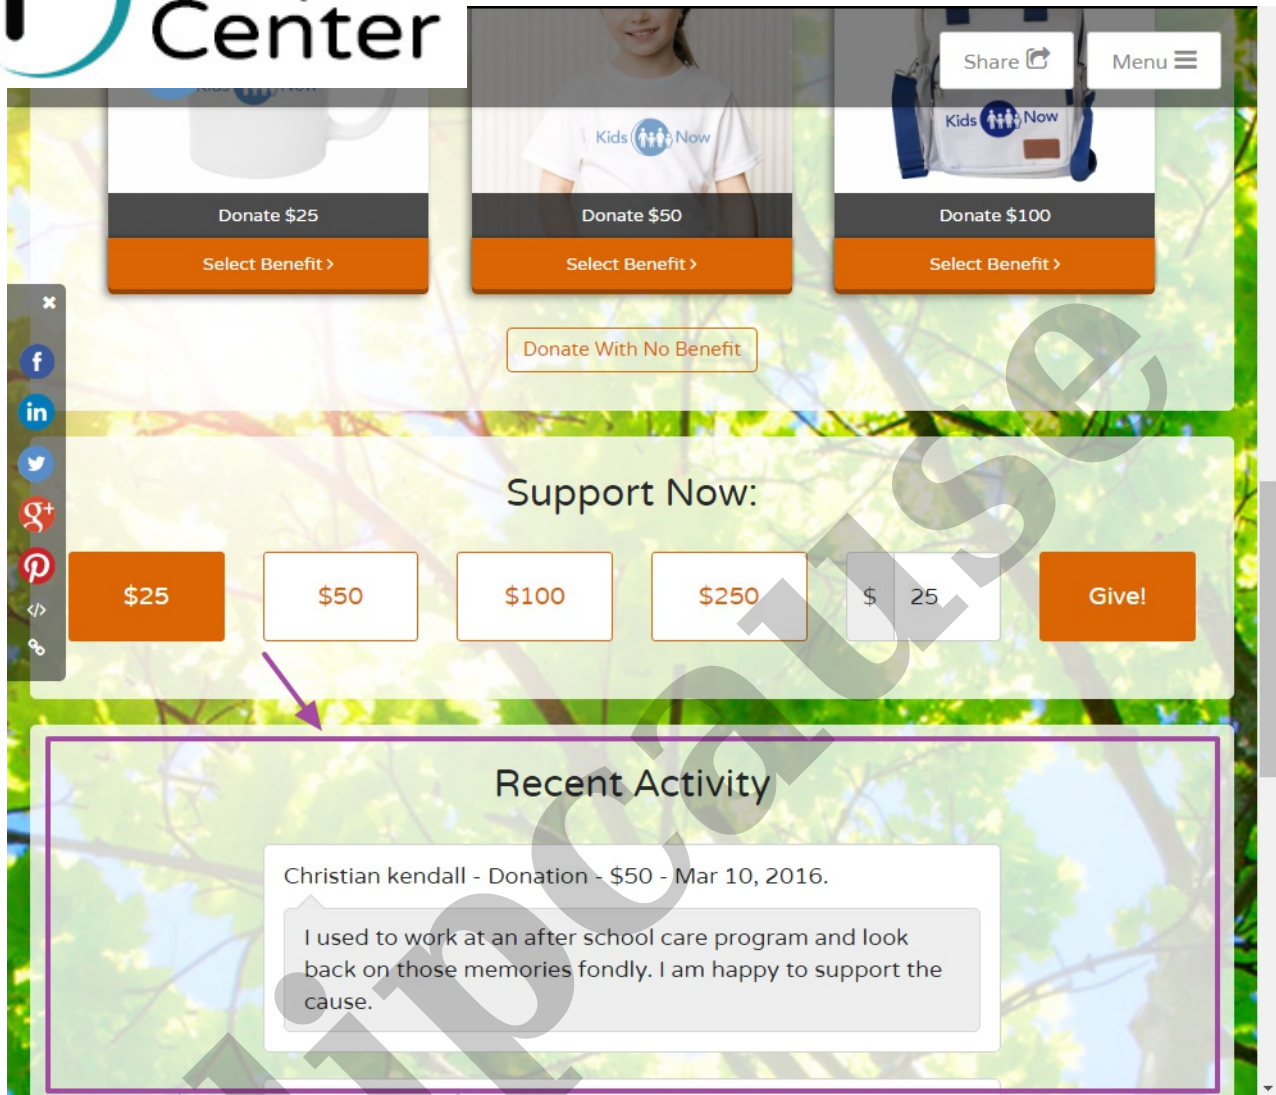

2. Campaign Site Additional Pages (found on the menu in the header).

3. Campaign Site Homepage Element (found on the Campaign Landing Page).

To hide this activity feed, see [here](#).

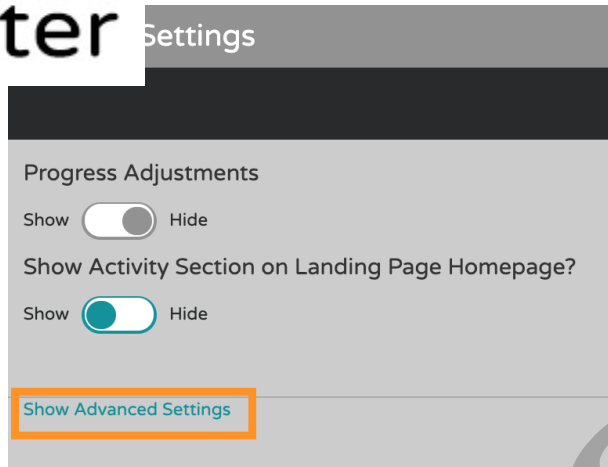

If you'd like to hide an individual activity from the feed rather than the entire feed, see [here](#).

Advanced Settings

If you want to hide specific elements like dollar amounts and donor names within activity feeds, you can do so in **Advanced Settings**.

In Activity Settings, Click "Show Advanced Settings" to display a dropdown of advanced settings.

Here you can click "Hide" to hide Names, Amounts, Activity Types, Activity Dates, and Activity Messages on the Campaign Landing Page or Widget.
