**Integrating into Wix**

Last Modified on 05/06/2019 2:18 pm PDT

Wix websites have limited functionality, and unfortunately do not support all of the integration options available in your Flipcause Integration Center.

If you're publishing your campaign to Wix, please be sure to use only the following options:

(Wix does not work with our floating buttons, popups, or direct embed campaign options).

---

Here is how to launch your campaign on Wix.
• Click **Integration Center** from your side navigation and select if you'd like to share a Campaign or Campaign Menu.

• Select which campaign or menu you'd like to share (please note, only Active campaigns and menus will be available in the Code Generator)

• Once you pick a specific campaign (or menu) you will be shown a section to Select Integration Type. From here, choose to open your Campaign Landing Page from a standard button or a Campaign Thumbnail. *(note: currently Wix is not compatible with campaign widgets)*
Once you select an option, you will be able to customize your button options as well as see a preview. Once you are satisfied with your customizations, click **Generate Code**.

An overlay will present you code options. Scroll down to the section that says “Copy This Button Code to Your Desired Webpage(s) and copy the code to the HTML code block onto the desired webpage(s) in your Wix website editor.”
Copy This Button Code to Your Desired Webpage(s)

Based on your selections, we have generated custom button code. Copy this code to your desired webpage or webpages where you would like your button to display.

```html
