The campaign widget banner is 1050 pixels wide by 175 pixels tall.

To Edit the campaign widget banner:

- Go to the Campaign Editor > Widget Appearance > Banner Image
- Click on the box to upload an image

We recommend designing any graphics with these dimensions from the start, if you upload an image that is larger than the recommended dimensions, click the edit (pencil) icon to crop into the image.
Here is what the widget banner looks like once published:
You can also use banners to stylize your campaign title and include other information. You'll want to design the image with text in it before you upload the banner. Here are some examples:
If you don't have someone that can design a banner for you, you can always request your Success Team to create one for you!
