

You can add shipping costs for any Items (online store items, ticket items, sponsorship packages, etc.) within your Flipcase Campaigns. Since these shipping costs can add up, you can cap the shipping cost for an entire order. For example, if someone buys 5 tee shirts, you may not need to charge them 5 times the shipping of a single tee shirt.

To set a maximum shipping cap per campaign/order/transaction, go to **Campaigns > Edit This Campaign** (choose a campaign) > **Order Settings > Maximum Shipping Cost Per Order**. Toggle the option to "Yes" and enter the maximum shipping amount.

Be sure to click **Save** to save your changes.

The screenshot displays the Flipcase Dashboard. The left sidebar contains navigation options: Campaigns, Manual Payments, Contacts, Website Portal, OPERATIONS (Integration Center, Custom Fields, Reports, Recurring Payments), and MERCHANT ACCOUNT (Account Summary, Statements). The main content area features a 'Welcome!' message and a 'We're here to help!' section with three buttons: 'Request Services', 'Help Center', and 'Contact Your Success Team'. Below these buttons is a chat prompt: 'Need to chat? Call us directly at (310) 986-4159 (Hours: 7:00 AM - 5:00 PM PST (M-F))'. The dashboard also includes a 'Transaction Healthmap' with a map showing transaction density and a 'Transaction Rates & Savings' section. The rates section shows: 'Average Rate This Quarter: 0.30% per transaction in Q3' and 'Average Rate Last Quarter: 1.60% per transaction in Q2'. It also notes 'Saved on Fees to Date' and a '1.5% Rate Guarantee'.
