Is it possible to make the zip code optional when someone is making a donation?

Last Modified on 07/11/2018 3:29 pm PDT

Zip codes will always be required for transactions through Flipcause. (We do accept international zip codes as well.) If you are hearing messages from supporters who do not have a zip code, I would ask them to get in touch with their bank to see if they can provide one. Zip codes are always required for security purposes so we do not have any workarounds for this.
