What happened to current active campaigns with the Merchant Partners tool activated?

Your existing campaigns using Merchant Partners stayed active until April 30, 2018.

- On May 1, 2018, active Merchant Partner tools were deactivated and are now inaccessible. You will notice the option to add Merchant Partners as a campaign tool has already been removed, so new campaigns with this tool can’t be created. The option to run a Merchant Partner Activity Type report was also removed.

- But don’t worry, you’ll still have all of your past transactional data stored in your Flipcause account and reporting. It will be available under Reports, Transaction & Activity Reporting.

This decision was made to make your fundraising efforts more fruitful for your organization. Reach out to your success team if you have further questions or concerns.
