Flipcause does not currently have a mass communication tool built in, but it is in our road map for the future! In the meantime, here is the way to send a mass message to everyone in your campaign:

<http://help.flipcause.com/help/email-supporters>

Currently, you can send a direct message using the Flipcause dashboard Contact Database.

Here's the step by step procedure:

1. Login to your Flipcause dashboard.
2. Click the **Contacts** button.
3. Search for the contact that you would like to send an email.
4. Click **View Profile** button.
5. Click the "**Send Message**" icon to send them an email.
