

HIPAA Compliance refers to data protection under the [Health Insurance Portability and Accountability Act](#).

HIPAA "sets the standard for sensitive patient data protection. Companies that deal with protected health information (PHI) must have physical, network, and process security measures in place and follow them to ensure HIPAA Compliance."

Flipcause takes data [security](#) and [privacy](#) seriously. We have implemented a variety of security measures to keep you and your constituents safe.

However, at the time of this writing, your Flipcause database and account are not considered HIPAA compliant and are not intended for storing of Sensitive Information, including Protected Health Information.

**Please be sure to read our [Terms and Conditions \(Section 32. PRIVACY\)](#) for complete and up-to-date details regarding data privacy.**
