

Combine any of the available engagement tools through Multi-tool. With this tool, you can provide various ways to engage your supporters in your campaign. Here's how to create a multi-tool campaign:

1. Flipcase **Dashboard > Campaigns > Create New Campaign > Multi-Tool**
2. From here, you can fill out the fields with information for your campaign, and click **Next**.
3. Choose the tools you would like to include in your campaign, and click **Publish Campaign**.

WHEN TO USE MULTI-TOOL

A good example of a campaign for this is an end-of-the-year gala [as seen here](#). For this event, you'd like to sell tickets as well as offer donation options for your supporters. You might also want to solicit volunteer help and sponsorships for your event. This is the best time to use multi-tool so you can feature all of these engagement tools in just one campaign. In addition, you can pair it with the [Cart feature](#), so supporters can add multiple items during checkout!

Other samples include:

- [Safe Paws](#)
- [Kids Now 5k Walk-A-Thon 2022](#)
- [2022 Virtual 5k Superhero Fun Run](#)

If you want, our Success Team can recreate these templates for your campaign!
